

LUNCH

Catering To-Go

Take home some LUNCH for home! We offer a similar take away catering option for family-style meals and we also have some a la carte LUNCH favorites. Like our menu at LUNCH, we have a rotating catering menu that reflects the seasons and what our farmers and purveyors have available at the time of your order.

What is family style catering? We believe sharing dishes and passing them around a table of friends or new acquaintances invites togetherness and encourages conversation about food in our area. All of our events both on and off site are served family style to cultivate community and sharing. If there are guests with dietary restrictions, we will work with you to make sure that those individuals have the same great experience.
